Strokes of literature

Introduction

The Strokes of Literature was a wonderful literary event held on 14 September 2026. The main purpose of the event was to bring young people together through literature and give everyone a chance to share their thoughts and creativity and love for words.

A total of 47 participants took part in the event .Everyone actively participated in the activities and enjoyed interacting with people from different clubs. The event was filled with interesting ideas and creativity, laughter and a friendly atmosphere. It was also a great opportunity for participants to meet new people, learn from each other and build new connections.

The program was not only about literature but also about enjoying the moment and creating good memories together. Everyone had a great time ,and the enthusiastic participation of all the participants made the event more enjoyable.

The sharing session was the main highlight of the programme. Participants listened to one another's creations, exchanged ideas, and encouraged each other. The diversity of writing styles and perspectives made the programme engaging and meaningful. It also helped strengthen cooperation and friendship among the different clubs.
